
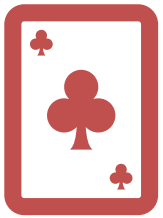
Transforming Education at Scale:

A unified AI framework to improve persistence, reduce barriers, and empower learners.

Strategic Focus & Success Factors



Strategic Focus (Grant-Aligned)

Improve student outcomes through AI-powered pathways, nudges, and life-aware scheduling

Expand advisor capacity by reducing administrative burden

Scale responsibly across a 20-institution consortium

Advance equity through proactive, personalized support

Critical Success Factors & Differentiation

Clear theory of change tied to measurable outcomes

Strong change management and adoption strategy

Responsible AI governance (privacy, bias, accessibility)

Consortium operating model enabling scale and sustainability

Approach & Workplan

Phase 1: Discover & Align (Weeks 1–2)

Grant criteria review and readiness assessment

Stakeholder interviews (advising, IT, student success)

Phase 2: Build Impact Framework (Weeks 3–4)

Define KPIs, equity measures, and efficiency gains

Design governance and responsible AI framework

Phase 3: Draft & Finalize Application (Weeks 5–7)

Develop narrative, visuals, and implementation plan

Red-team review and submission readiness

Role: ***Lead strategist and integrator***

Structuring the work, aligning stakeholders, and ensuring a compelling submission

Key Risks & Mitigation Strategies
